

MARCH 31, 2018

## Investment Strategy

The Fund invests in a limited number of common stocks selected on a value basis using fundamental research. The portfolio is diversified to include basic value stocks, but also includes stocks of companies with consistent earnings characteristics and those of emerging franchises, when these issues are value priced.

## Investment Objective

The Fund seeks long-term capital appreciation by investing in equity and debt securities of all types. As a secondary consideration the Fund also seeks some current income. There is no guarantee that the Fund will meet its objectives.

Returns for less than one year are not annualized.

\* Prior to inception of this share class, performance is hypothetical and was calculated from actual returns of the class A shares adjusted for the expenses of the newer share class.

*Performance data shown represents past performance and is no guarantee of future results. Investment return and principal value will fluctuate so shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than quoted. For performance current to the most recent month end, visit thornburg.com or call 877-215-1330. The maximum sales charge for the Fund's A shares is 4.50%. C shares include a 1% CDSC for the first year only. There is no up-front sales charge for class I shares. The total annual fund operating expenses are as follows: A shares, 1.35%; C shares, 2.10%; I shares, 1.09%. Thornburg Investment Management and/or Thornburg Securities Corporation have contractually agreed to waive fees and reimburse expenses through at least February 1, 2019, for some of the share classes, resulting in net expense ratios of the following: I shares, 0.99%. For more detailed information on fund expenses and waivers/reimbursements please see the fund's prospectus.*

## Important Information

Investments carry risks, including possible loss of principal. Additional risks may be associated with investments outside the United States, especially in emerging markets, including currency fluctuations, illiquidity, volatility, and political and economic risks. Investments in small- and mid-capitalization companies may increase the risk of greater price fluctuations. Investments in the Fund are not FDIC insured, nor are they bank deposits or guaranteed by a bank or any other entity.

Class I shares may not be available to all investors. Minimum investments for the I share class may be higher than those for other classes.

Portfolio attributes and holdings can and do vary.

## Glossary

**Active Share** is a measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index.

**Beta** is a measure of market-related risk. Less than one means the portfolio is less volatile than the index, while greater than one indicates more volatility than the index.

**The S&P 500 Index** is an unmanaged broad measure of the U.S. stock market.

Indices do not take into account fees and expenses. Investors cannot make direct investments in an index.
