

# Thornburg Intermediate Municipal Fund

SEPTEMBER 30, 2018

## Investment Strategy

The Fund is an actively managed, laddered portfolio of municipal bonds with maturities not exceeding 20 years. Actively laddering portfolios involves building a portfolio of bonds with staggered maturities that are over-weighted or under-weighted based on our assessment of market risks and individual credit opportunities. A portion of the portfolio matures each year and cash from maturing bonds is invested in bonds with longer maturities.

A bond credit rating assesses the financial ability of a debt issuer to make timely payments of principal and interest. Ratings of AAA (the highest), AA, A, and BBB are investment-grade quality. Ratings of BB, B, CCC, CC, C and D (the lowest) are considered below investment grade, speculative grade, or junk bonds. Credit quality ratings for Thornburg's municipal portfolios used the highest rating available from S&P Global Ratings or Moody's Investors Service. "NR" = not rated.

## Important Information

Investments carry risks, including possible loss of principal. Portfolios investing in bonds have the same interest rate, inflation, and credit risks that are associated with the underlying bonds. The value of bonds will fluctuate relative to changes in interest rates, decreasing when interest rates rise. Unlike bonds, bond funds have ongoing fees and expenses. Investments in the Fund are not FDIC insured, nor are they bank deposits or guaranteed by a bank or any other entity.

Although it reserves the right to do so, this Fund does not currently invest in bonds subject to the Federal alternative minimum tax (AMT).

Class I shares may not be available to all investors. Minimum investments for the I share class may be higher than those for other classes.

Effective Duration – A bond's sensitivity to interest rates, incorporating the embedded option features, such as call provisions. Bonds with longer durations experience greater price volatility than bonds with shorter durations.

Lipper ratings for Total Return reflect funds' historical total return performance (before sales charge) relative to peers. Lipper ratings for Consistent Return reflect funds' historical risk-adjusted returns (before sales charge), adjusted for volatility, relative to peers. Lipper ratings for Preservation reflect the funds' historical loss avoidance relative to other funds within the fixed income asset class. The ratings are subject to change every month and are based on an equal-weighted average of percentile ranks for each metric over three-, five-, and ten-year periods (if applicable). The highest 20% of funds in each peer group are named Lipper Leader, or a score of 5, the next 20% receive a score of 4, the middle 20% are scored 3, the next 20% are scored 2, and the lowest 20% are scored 1. Lipper ratings are not intended to predict future results, and Lipper does not guarantee the accuracy of this information.
